UNCERTAINTY; FEW  
ADVANCES ARE HAD

Market is Very Far From Active. Some of the Specialties Make Great Headway but Lose Later.

NEW YORK, March 2.—Prices moved with more or less uncertainty during the greater part of a dull session. It closed with a number of moderate declines. It advanced on substantial reactions to within a point or less registered at the opening. Some specialties made great headway. The gains were soon forfeited on moderate selling orders. Trading dragged in the last half of the session. The changes were mainly downward though orderly. Rails were less active but manifested more stability. United States Steel hung around yesterday's final. Total sales were 380,000 shares. Bonds were firm, the total sales being \$3,256,000.

(By L. J. Overlock)

BOSTON, March 2.—The determination of President Wilson to throw the responsibility of our foreign relations on Congress is well received. People will feel happier if Congress backs up the President, besides it would have an important influence with German diplomats. Stocks are undoubtedly passing from weak to strong hands and if this is true, the course of prices will be correct shortly (upward). These are the spots to buy stocks on, taking advantage of the railroads to get out. The coppers hold up fairly well and will be the first to rally when the market turns for the better. Total sales 355,200.

Dividends declared. Regular and \$1.00 extra on Utah. Butte Sup 75c and \$1.00 extra. Chino \$1.25 Ray 50c. Paine, Webber & Co.

Copper Range announces bonus of 20 percent in wage during March and April.

Extensive buying of cars by railroads all over country reported.

## BREWERY GULCH IN PICTURES

The moving pictures of Brewery and the exterior of the Lyric theatre taken last Sunday will be shown at the Lyric today in conjunction with the Lyric's feature the seventh episode of the Black Box. This will be the first opportunity Bisbeeites will have to see themselves in moving pictures and a record breaking crowd is expected to turn out. The pictures will be shown continuously from 1 to 10 p. m.

"THE BACHELOR" IS  
GREAT AT ORPHEUM

Photoplay Suggest by Poem of Service, Under Same Name, at Central Tonight.

It is the custom of many comedy companies to put their best goods in the shop window, and put on their best performances first, but the Manhattan Company evidently has a different system, as proclaimed by the fact that the piece played by them last evening was in many instances superior to their first.

The laughter and applause which greeted the numerous amusing incidents in "The Bachelor" were sufficient testimony to the success of the comedy from the auditors point of view, and equally convincing was the pleased recognition of the more serious items interjected through the evening.

According to many critics first honors would undoubtedly go to Mr. Tommy La Rose for his clever impersonation of the Dutch Uncle, and again it must be noted that in such a character he is funnier by far than if he adopted the hackneyed tricks used by so many who play this role, and dispense almost entirely with the exaggerated make-up so frequently seen in the part. Mr. Arthur Harrison, as the doctor, proved an admirable assistant to Mr. La Rose. Many people fail to see the difficulty attached to the "second fiddle" in comedy, it being his part to bring out and accentuate the ludicrous situations created by the chief player. In doing this the assistant has in great measure to sacrifice his opportunity of making a personal hit.

Miss Stella Mayfield gave an excellent impersonation of the mother-in-law, though in the opinion of many she would show to greater advantage in more youthful roles. Her acting shows a judgement and poise which are not to be recognized in any but a master of the actor's craft.

The soubrette, Miss Ruth Leslie, who has danced her way into the hearts of Bisbee audiences, was more successful than ever last night, especial notice being due to her work in the hesitation "Valse Brillante" in which she and Mr. Wm. Truehart showed that with them the dance has indeed been brought to the level of a fine art. The singing of Miss Leslie and Mr. Truehart was also accorded a generous measure of applause.

Miss Floe Collins' song number was not one of the least enjoyable items of a pleasant program, though she will be still more successful when she has overcome a tendency to nervousness natural in one who is yet a novice on the stage.

The work of the chorus was again very pleasing, their best success being scored in the song, "Follow Them Around," in which the members went round the aisles of the theatre, being forced to repeat this performance.

Tonight the Manhattan Company will give the comedy "The Girl and the Jockey" with entirely different songs, dances, and musical numbers. Attention should be drawn to the fact that at this evening's play there

will be a special attraction in the form of harmony singing and double yodelling by Mr. Tommy La Rose and Mr. Arthur Harrison.

DEATH CLAIMS  
CARMAN SYLVA

(Continued from Page 1)

loved that the people called her "The Little Mother." Out of her own private purse she founded schools, hospitals, and art galleries, and devoted practically her whole life to philanthropy. Although she had practiced her literary talents in a limited way for many years, it was not until the death of her first and only child, at the age of four, that much of her work was published. Though her poems lost much from the translation, one glimpse of a favorite theme is as follows:

"The fairest word on earth that's heard,  
On human lips the fairest word,  
Is mother.

To whom such name shall once belong,  
High honor hers her whole life long.

A mother.  
But all her earthly joys are o'er,  
Who is and then who is no more  
A mother."

She translated into German the favorite Rumanian folk songs, and wrote some short novels and dramas. Some of her publications are: "Thoughts of a Queen," "Edleen Vaughan," "Shadows on Life's Dial" and "A Real Queen's Fairy Book."

She was an indefatigable worker. Interviewers who have been received at her place have found her answering her innumerable letters herself on a typewriter—four of which machines she had in constant use, equipped for writing in English, Rumanian, French and German. Once a pupil of Rubinstein, she was skilled in the playing of the piano, and she was also gifted as an artist.

Having lost her own little girl, she pictured herself as mother to millions of Rumanian children, and among them she was held in great affection. As to woman's work, Carmen Sylva often expressed herself in interviews. "A woman," she said, "is made for the home. Her hands should be trained to do beautiful things, things which she can do by her own fireside, and there her husband should find her."

Her husband, King Charles I. of Rumania, died in October, 1914, past 75 years of age. Since then the Queen Mother herself had been in ill-health, suffering particularly from catarrh in both eyes.

## EMPLOYEES WARNED.

ASHLAND, Wis., March 1.—Warning that the plant of the Dupont Powder company would be blown up in "early March" was received to the employees of the company. Letters urged the workers to remain at home. The guard on the plant was doubled and powerful searchlights were installed.

SAYS HOT WATER  
EACH DAY KEEPS  
THE DOCTOR AWAY

DRINK GLASS OF HOT WATER BEFORE BREAKFAST TO WASH OUT THE POISONS.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys, and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonder fully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but sufficient to make anyone a pronounced crank on the subject of internal sanitation.
